UPDATE RE: CADENT GAS WORKS

October 2020

Dear Resident,

Good News re: Rescheduling of Gas Work – Glovers Field

Thank you to the residents and the Parish Council who let us know that gas works in Glovers Field, which had been deferred at our request from the same time last year, were due to start again this month.

We are pleased to say that Cadent Gas have now accepted that they should defer the work for a second time. This is now likely to take place between January and February 2021. Hopefully, this reschedule will mean that you can enjoy the festive period without any disturbances.

The company will obviously be writing to residents to outline the new schedule once it has been determined. If in the meantime we can be of any help to you please feel free to reach out to us using the details provided below.

Kind regards,

Lesley and Roger
